FIFA (from FIFA) is the best-selling console video game franchise of all time, and the #1 selling football game for the last 13 years. Based on the official rules of association football, FIFA games deliver authentic and realistic football action - from two-to-thirteen year olds right up to the pros. How does it work? The core of the game is the Action Camera, which tracks your player's every move. Accurate control of dribbling, passing, shooting and heading keep the action feeling smooth and realistic. You can even mix it up and use the Game Intelligence system to play your way through the game. * Get a more powerful engine and smoother, more realistic graphics using the PS4 Pro or the Xbox One X. Gameplay It's all about

the ACTION! The fastest, most agile game in the series is powered by the Action Camera. A new control layout has been added, to give players the flexibility to control their game how they want, while still retaining the true-to-life feel of the game. Exclusive to FIFA, you'll also now see a smarter opponent model that is more realistic and able to predict your next move, which will help you play your way out of a tight game. Endless Possibilities: Mix it up with the Game Intelligence feature, which reacts to the way you play. For example, if you're using the run button often, it will suggest you use the back-pass. New Ball Physics: Unpredictable and chaotic, the ball behaves differently in real life, which brings exciting new challenges for defenders. New Player I.D: Find, befriend and customise your own ultimate team of 22 footballers. Real Clubs, Real Rivals: New Career Mode, The Journey mode and real-world stadiums with stats. In Career Mode, free agents can switch clubs and play as a variety of role-models, including Lionel Messi, Cristiano Ronaldo and the best managers. Featuring 22 real clubs and hundreds of players, Rivals returns as the biggest annual club competition in the game. Complete celebrations: Players can celebrate in a variety of different ways - lift their arms, jump and spray the crowd, or even have a roll over the grass. Movements Control: Players can now use the PS4™ Touchpad to control the ball when in possession.
